

Concordia Market Category Map

Note: The Concordia Market uses the product category to map the menus. The top-level menus correspond to the top-level categories of Resources, Services, Experiences, and Projects. If you wish your product to appear under the Resource menu, it must have a category that is connected to the Resource category, e.g. a resource on elder training appearing under the Resource menu, elder subcategory would have the following category Resources->Elder. To arrive at that category, begin typing the word "elder." The seller cannot create a new category. However, you may request a new category using the following email, info@concordiamarketplace.com.

1. Resources

1.1. Ministry Resources

- 1.1.1. Children
- 1.1.2. Congregation
- 1.1.3. Conflict Resolution
- 1.1.4. Elder
